*"Terrific course. Lots of great info useful to all" "Lecturers were all well prepared, engaging and stimulating"
"I loved having the slides and handouts in advance" (student evaluations)*

Classes include lectures by experts and hands-on workshops on major online resources and genealogy programs. The course covers:

- | | |
|---|---|
| • Basic research strategies & skills | • Immigrant ancestors & U.S. records |
| • Online resources & tools | • European & Israeli records |
| • Jewish names and customs | • Holocaust victims & survivors |
| • Migration history & changing European borders | • Organizing & publishing your research |

The course is designed for beginners and those who have started their research. Students should have experience using the Web and are strongly encouraged to bring laptops or tablets to class to participate in Web-based hands-on workshops.

The course website provides audio recordings of lectures, PowerPoint slides and class handouts for those who miss a class and as a resource for all students.
